

# *In celebration of our brave little loved ones*

## **Benjamin Walker Hanson**

March 3, 2005—May 9, 2005

**Son of Kate and Brian Hanson,  
Brother of Alex and Grace**

Ben was born unexpectedly at 34 weeks weighing just under 10 lbs, almost half of which was fluid. Ben suffered from a massive case of hydrops and was given a less than 10% chance to live through the night. A fighter, Ben beat the odds to embark on his short life. We were finally able to hold Ben for the first time the day after Easter, almost a month after his birth. He was a beautiful boy whose open eyes brought us immeasurable joy and whose little hands were constantly curled around our fingers. A little over two months later on Mother's Day we were told there was nothing more they could do. Ben passed away in the arms of his parents the following morning. Ben will be forever loved by his family and although his life was short he left a lasting imprint on our hearts and minds.

## **Amelia Rose Jorgenson**

May 1, 2002 - December 13, 2002

**Daughter of Kathy Draeger and  
Mike Jorgenson, Sister of Alma,  
Lake and Jens**

Amelia Rose (our Milly Rose) was born on May 1, 2002 to Kathy Draeger and Mike Jorgenson. Before Milly was born we knew of her heart defect, considered treatable with one surgery early in life. Milly thrived at home with her mother, father, and big sister Alma for nearly 8 months. She was a happy, chatty and chubby little girl and we nicknamed her our chunky monkey. We brought her in for her elective heart surgery which proved to be very difficult- lasting for 28 hours and exhausting her little body. She died on December 13, 2002. Remember with great love and loss by all who snuggled this sweet little lovey.

## **Andrew Martin Neville**

October 5, 2000—October 26, 2000

**Son of Patty & Ted Neville  
Brother of Daniel, Carlene and  
Elizabeth**

Andrew Martin Neville - this beautiful soul was born October 5, 2000 and died October 26, 2000. He had blue eyes, blonde hair, Down Syndrome and was 10.2 pounds at birth (35.5 weeks). He was born with hydrops, (excess fluid on his body). While Andrew was alive, he opened his eyes and was preciousely held by his parents only once, however, grasped our fingers with his delicate hand, was ticklish on his left side and responded to mommies voice. Some might say that his 3 weeks of life was short, though it was not just three weeks. We carefully nurtured him for eight months, contemplating the perfect name, the wallpaper for his room, the color of his first outfit, the dreaded circumcision. He was a beam of light for his older brother Daniel. He was the little boy who would run, jump, play and fill the house with sibling laughter. He continues to fill our world as we hold his memories close to our heart. Andrew our everlasting trooper, who lived, yet died, bringing thousands of people together to pray and help other babies and families who unfortunately have to share in his experience.

## **Aiden Francis Baum**

July 11, 2007—July 12, 2007

**Son of Rachel and Corey Baum  
Brother of Sophia and Ava**

Aiden Francis Baum was born on July 11, 2007 and only lived for a few short hours. It was discovered during a routine ultrasound that he had fluid had built up in his lungs and the doctors needed to deliver immediately. After he was born we were informed that he had hydrops. We were able to see him briefly through the day and Dad was able to give him a kiss. Unfortunately we never got to hold him until he passed away.
